ABOUT ME

CompTIA A+ certified IT specialist with a focus on blue-team security and virtualization, currently pursuing professional certifications. A dedicated home-labber since age nine, progressing from managing multi-boot systems to architecting complex nested VM environments and implementing enterprise-level hypervisors ESXi, Proxmox and XenServer. A collaborative and effective technical communicator interested in cloud computing.

EDUCATION & CERTIFICATIONS

Jr. Highschool - Graduation 2026

Grade 9 Student

Highschool - Entering 2026

Grade 10 Student

Core 1 - 810 | Core 2 - 793

CompTIA A+ certified - Age 13

Verify with: **SZQRSQN54EVQKS9J**

Actively pursuing

Azure Fundamentals (AZ-900)

PROJECTS

Installed, configured and explored XenCenter & XenServer

Configured XenServer 8.4 and its management console XenCenter 4. Created and managed virtual machines, implemented snapshots for DR, established resource pools and executed VM migration between hosts.

Installed, configured and explored VMware ESXi

Explored ESXi via the ESXi Web Host Client, increasing productivity by 50%. Managed Datastores, file systems, and VMs in an enterprise environment.

Remediated 10+ malware detections on Windows

Removed malware-flagged files with Microsoft Defender and verified cleanup with Malwarebytes, adhering to CompTIA best practices.

Configured Arch Linux all through CLI

Utilized tools like fdisk, networking commands and text editors nano, vim and vi with support. Gained knowledge on static IP configurations, mirror lists and Linux at a deeper level. Used 20+ mirrors globally.

Multi-Boot system all in a singular VM

Created a diverse virtual machine with 5 operating systems, Windows 10 and 11, Ubuntu, Fedora and Kali Linux in VMware Workstation Pro.

SKILLS

- Windows 7 - 11
- Linux Distros
- VMware Workstation Pro 25H2
- Microsoft Hyper-V
- Oracle VirtualBox 7
- VMware ESXi 8
- Proxmox 8.4
- XenServer 8.4
